

# QUARKXPRESS

LOVE PRINT, LIVE DIGITAL

## WHAT IS QUARKXPRESS?

QuarkXPress is the most flexible software for print and digital design. From page layout and web design to mobile app creation, illustrations and photo editing, QuarkXPress is the go-to application for designers who love print and live digital. QuarkXPress 2019 introduces groundbreaking new Flex Layouts for Web design, reimagined Tables, and new productivity-boosting design features.

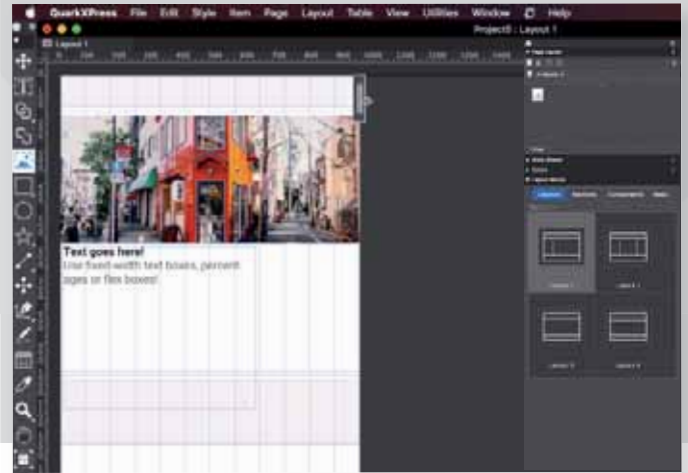

## WHAT'S NEW IN QUARKXPRESS 2019:

### FLEX LAYOUTS

#### Introducing modern responsive web design

QuarkXPress 2019 introduces Flex Layouts, a first in digital publishing for graphic designers. Flex Layouts is a new layout space that lets designers create truly responsive HTML5 Web pages in a WYSIWYG environment. Flex Layouts do not require any HTML or CSS coding skills, which means graphic designers can start creating banner ads, landing pages and microsites now.

### TABLES REIMAGINED

#### Combined creative freedom and time-saving automation

QuarkXPress introduces new styling rules for table, row, column and cell level formatting along with text styling rules in an intuitive user interface. You can apply table styles to any table regardless of whether you created directly in QuarkXPress or auto-imported a table from Excel. Plus, if you change the source Excel table, the data is updated in QuarkXPress without impacting your table design.
